Things to consider before you order....

Garment Style

If you have a preference regarding the type of fabric/colours/design elements, please describe your ideas and draw on the templates. If you already know your floor music, it helps to let us know your thoughts on possible style influences (please consult your coach about this). Examples of garment styles: bright and vibrant; soft and pretty; cheeky and jaunty; classic and simple. Alternatively, your music may have a very obvious theme such as Asian, African, Russian etc which you'd like to incorporate. Otherwise, just put 'no preference' and we'll let our imaginations run wild!

Crystals

Because competition garments are not worn and washed as often as training wear, I tend to use Swarovski crystal sparingly and opt for good but cheaper alternatives as well as gold and silver shapes. I only use excellent quality crystal and you won't be able to tell just by looking at it which is Swarovski and which is not. I believe the main difference which sets Swarovski apart from it's competitors is the glue used to attach the stones. With repeated wearing and washing the alternative brands will come loose before the Swarovski, however as the competition garments are only worn occasionally, (and we suggest hand washing them) then this really isn't an issue. Using other brands also means you get more sparkle for your money!

Budget

We pride ourselves on being able to provide individually designed outfits at a fair price. We've done a lot of research on what's currently available and the choice seems to be between purchasing a high priced catalogue 'custom' leotard where the only choices are actually colour of fabric and whether to add crystal or not, or else you can pay extortionate amounts for something which is made to order (and often imported).

We think we can offer an alternative to this and can make bespoke outfits starting at £50 to include design, manufacture and crystals. Prices quoted are based on how much design has gone into the garment and how much cutting, sewing, and crystallising time will be required.

It also helps if we know at what level the gymnasts are competing. Obviously those doing NDP Grade 1 will not require as detailed and crystallised design as someone competing internationally. That said, your Grade 1 gymnasts will not be out sparkled on floor if they're wearing one of our outfits!

It is our intention to make each outfit as individual as possible and certainly once you've purchased a design, nobody will have exactly the same outfit as you. However, we may use similar shapes in other fabrics and colour combinations.

Ordering, Payment and Delivery

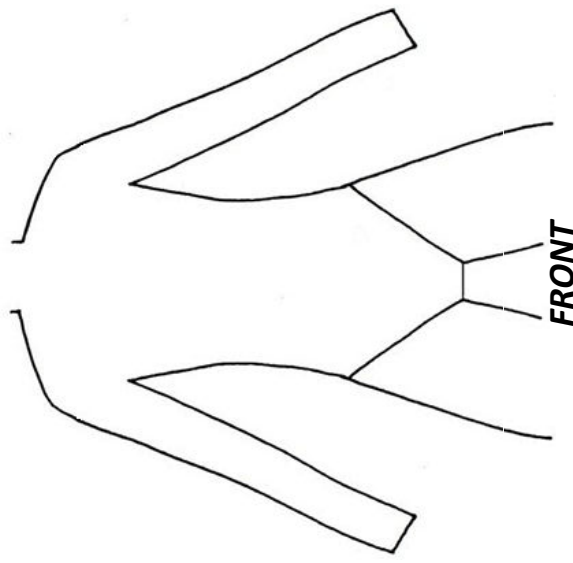

In the first instance you should either fill in the template form and post or e-mail it to me, or else call me on 01829 720586 to discuss your requirements. I'll then be able to tell you whether I can deliver your order by the specified delivery date. We request that you allow at least 6 weeks from the placement of the order to actual delivery, however, tighter timescales might be possible by prior agreement. After this initial contact, I will consider all the elements you require and e-mail back a design (or designs) that I think would be suitable with the price confirmed. If you wish to go ahead and apply to purchase one of our designs, you should let me know either by e-mail to ang@aareflex.co.uk or else in writing by post to: AA Reflex Ltd, Broadoak Barn, Bulkeley Hall Lane, Bickerton, Malpas, Cheshire, SY14 8BA. A 50% deposit is payable when you receive written or e-mailed acceptance of the order from us and the final payment will be requested when dispatch is imminent.
